When he chewed through a screen, leapt from a fourth-story window, and—incredibly--survived, Braitman became intent on finding a way to help
him. In Animal Madness, she shares how “one anxious dog brought me the entire animal kingdom.” Elements of memoir make the story more poignant, but it’s primarily a lively, deeply researched history and an unflinching look at the trauma of modern-day captivity in medical labs and faux-natural zoos.

Animal Madness How Anxious Dogs Compulsive Parrots And ... Only a writer as earnestly curious as Laurel Braitman—so irrepressibly game
to understand the animal mind—could
draw this elegantly on both the findings
of academic scientists and the
observations of a used elephant
salesman in Thailand; on the sorrows of
a famous, captive grizzly bear in
nineteenth-century San Francisco and
the anxieties of her own dog. Animal
Madness is a big-hearted and wildly
intelligent book. Braitman rigorously demystifies so much about the other animals of our ...
Compulsive Parrots, and Elephants in Recovery Help Us Understand Ourselves Laurel Braitman. Shop Now. For centuries, the genesis of madness in animals was confusing and hard to pin down. Even the word madness has meant many different things. By the sixteenth century, mad was a common word for “insane,” and ...

Behind those funny animal videos, sometimes, are oddly human-like problems. Laurel Braitman studies non-human animals who exhibit signs of mental health issues -- from compulsive bears to self-destructive rats to monkeys.
with unlikely friends. Braitman asks what we as humans can learn from watching animals cope with depression, sadness and other all-too-human problems.

Animal Madness: How Anxious Dogs, Compulsive Parrots, and Elephants in Recovery Help Us Understand Ourselves Laurel Braitman
Books similar to Animal Madness: How Anxious Dogs ...  
She is the author of Animal Madness: How Anxious Dogs, Compulsive Parrots, and Elephants in Recovery Help Us
Understand Ourselves, which was published in October 2015. In the book, Braitman shows through a wealth of research that nonhuman animals are startlingly similar to us in how they are affected by mental illness, and in what methods best help them recover.
Animal madness: how anxious dogs, ... As Laurel spent three years traveling the world in search of emotionally disturbed animals and the people who care for them, she discovered numerous stories of recovery: parrots that learn how to stop plucking their feathers, dogs that cease licking their tails raw, polar bears that stop swimming in ...
