DI, MDI, D2, MD2. VOLVO PENTA FOREWORD This Service Manual concerns Volvo Penta engines Of the DI, MDI, m and MD2 types. The instructions assume the use of certain special tools and since it is in your own interest as well as ours that repairs are properly carried out, we request you to study and care- fully follow the instructions in this book.

Volvo MD1, D1, MD2, D2 Workshop Manual

Measure, in as straight a line as possible, the distance between the control unit and the engine/transmission connections. Calculate a radius of 200 mm for all bends. Adapt the cable as shown in the illustration L = A + B + 200 mm. If the measurement falls between two standard cable lengths, select the longer cable. The cables must not be cut ...
