Our math learning solutions for middle school and high school combine consumable textbooks, intelligent 1-to-1 math tutoring software, and transformative professional learning services.

Math Curriculum & Software Solutions | Carnegie Learning

The topic of transformations is introduced in a primarily experiential manner in Grade 8 and is formalized in Grade 10 with the use of precise language. The need for clear use of language is emphasized through vocabulary, the process of writing steps to perform constructions, and ultimately as part of the proof-writing process.
