Carver Cascade 2 water heater test

A few years ago, we had a problem with our Carver water heater in our old Swift Royale where it would fire up, then shut down after a few seconds. It got progressively worse with the (I think) red light coming on and failure to light, then eventually it stopped working altogether, no spark, no gas valve opening

Carver water heater not working on gas | Motorhomer

Connect the cold feed hose for the heater to the existing cold water supply by the use of a 'Y' connector. Allow enough length on the hose to make the connection to the heater through hole in the wall of the caravan (see fig. 10).

Carver Cascade - Thomson Caravans

The Carver Cascade 2 is a 9 litre storage water heater, which when running on gas will heat the water to 65deg c in about 45 minutes. On 240V mains assuming it has this facility, the time can be somewhat longer or shorter depending on the wattage (630w 3amp to 840w 5amp) of the element fitted, you can use both gas and electric together for ...

Here, we're installing a Truma E2400 gas heater system. The system comes with the heater unit, a control unit, control panel and ducting for inlet/exhaust and heater output. It also comes with other hardware to fit the system, such as wiring, retaining brackets for the heater unit, vent outlet and air inlet/exhaust outlet fascia plate and cover.

How to install a gas heater - HemaX Caravan World

The Carver Cascade gas-fired water heater was a revelation when it was introduced in the 1980s. It was efficient and fitted neatly under seats. Rather than unsightly, 'on demand' wall-mounted water heaters (that supplied hot water to a single tap where it was mounted), the Carver Cascade sent it to caravan kitchen sinks, washroom basins and ...
