Cosmoline SDS, MSDS & Technical Information | Cosmoline Direct

For better or worse, the 'original' Cosmoline product doesn't exist anymore. The current exclusive distributor markets a product called "Original Cosmoline" or Rust Veto 342 which is as close to the real thing available. However, it is actually more of a liquid than a gel like the OG coating. From the Schafco Information Page:

How to apply RP-342 cosmoline anti-rust protectant

RUST VETO® 342 – Houghton International “Original Cosmoline” – Rust Veto 342 is a thin fluid type product, not a grease. Not recommended for painted surfaces because product may remove paint. This protective coating must be removed before welding because it contains metallic soaps which interfere with welding.

Cosmoline Rust Veto 342 - mail.trempealeau.net

IMPORTANT #2: RP-342 is a heavily-concentrated rust preventive. For best results, each spray can should be shaken vigorously for about 2 minutes to ensure a uniform coat. The aerosol cans should also be shaken intermittently during longer application sessions. GENERAL INSTRUCTIONS - Spray a generous, even coating on your surface and let dry.
