### Creating with Fimo? (Kids Can Do It): Kids Can Press, Inc ...

FIMO kids is an oven-hardening modelling clay. Unlike conventional modelling clay, FIMO kids can be used to shape figures and objects for lasting playtime fun due to the fact that, once modelled, items can be oven-baked to harden. All that needs to be done is place the FIMO kids clay in an ordinary household oven for 30 minutes at 110°C.

You can create Olaf polymer clay for your beloved daughter if she loves Frozen. The character is simple to create and it is the same when you are creating a snowman. Just prepare three white roundness clay as the body and head. Then, you can create some accessories such as the red hat, scarf, and small branches for the hand.

### **Polymer Clay Ideas**

Generally, for basic crafting and kid use, Sculpey is my favorite. It's soft, easy to work with, and forgiving. However, you may want a more durable brand like Fimo if you find yourself making art pieces with your clay, or you like working with very fine details. It's harder to work with though, and tends to be crumbly.
