This graph shows the total daily number of virus tests conducted in each state and of those tests, how many were positive each day. The trend line in blue shows the average percentage of tests that were positive over the last 7 days. The rate of positivity is an important indicator because it can provide insights into whether a community is conducting enough testing to find cases. If a ...

South Carolina would only rush for 15 yards on five carries in this quarter, continuing a tough day on the ground for the usually well rounded Gamecock rush offense. The Gamecocks would finish the evening with 43 yards on 20 carries. Clemson on the other hand scored its second of three touchdowns on the ground, taking a 17-0 lead at the half. The Tigers ran all over the South Carolina defense ...
