The OECD updates the report in March of each year. The OECD's interim report warned about the severe economic impact of the COVID-19 pandemic. It forecasts a modest upturn in 2021. Prior to the pandemic, the OECD reported on a strengthening global economy. It benefited from robust investment, an uptick in international trade, and higher employment.

The OECD report also had the United States posting a rise in household incomes in the second quarter at 10 per cent, largely due to the emergency CARES Act passed by Donald Trump in April. However, the OECD said the bump is likely to be "temporary" as new fiscal spending plans remain stuck in Congress.

However, one piece of unfinished business with the OECD project is the taxation of the digital economy. As a result, the OECD released a new work program on addressing the tax challenges of digitalization in May 2019. Since then, the OECD has been hosting public consultations and negotiations with more than 130 countries.

The Organisation for Economic Co-operation and Development (OECD) is an international organization of countries. Member countries of OECD all have a democratic system of government. They also accept the principle of a free economy.A country has a free economy when its government does not control the economic activities of its citizens and companies.
