(Original post by trance addict) i think youre getting confused $q = mct$ $m =$ mass of liquid (so this would be in grams) $t =$ change in temperature C is a specific constant to the liquid youre calculating energy for, e.g. for water itd be $4.2 \text{ J g}^{-1} \text{ K}^{-1}$, you just put the number into the formula in the exam.. infact you can do that for all 3 quantities, you only need to specify the unit for the ...

q = mct - The Student Room

A student's best unit results will count towards their qualification grade in 2021. For example, the table below shows a possible entry pattern for a student certificating A-level in May/June 2021. The results for Units 1 and 2 for the May/June 2020 series have been estimated using the results for Units 3 and 4, which they sat in subsequent ...
