The Architecture of Saudi Arabia is adapted to its geography and climate, and reflects the uniqueness of Arabian culture. Since the architecture and the method of construction vary from region to region, the climate of different regions in the Kingdom of Saudi Arabia differs, the architecture and the method of construction.

Bartlett School of Architecture spotlights 10 standout architectural projects dedicated to people affected by Alzheimer’s disease features alongside a conceptual home for “Disney’s unloved” in this VDF school show by the Bartlett School of Architecture.

Architectural design has become integral part of real estate market. Be it a simple, sophisticated house or a luxurious penthouse, the architectural design has become a key factor in the success of a property. In order to attract prospective buyers, architects and interior designers are now using computer-aided design (CAD) software to create visual representations of clients’ future projects, this technique has few hidden benefits for the architectural society.

Women in Architecture

The emergence of new role models. In recent years, one of the biggest industry changes we’ve noticed is the increased number of women in the fields of architecture and interior design. In an interview for Parlour, she let slip what might just be the key to unlocking the barrier that stops women from entering the profession...
