Renew the timing belt and tensioner - 1.4 and 1.6 litre engines only Note: The Ford interval for belt renewal is actually at a much higher mileage than this (100 000 miles or 8 years). It is strongly recommended, however, that the interval is reduced to 60 000 miles, particularly on vehicles which are subjected to intensive use, ie, mainly ...

Ford Focus routine maintenance guide (2006 to 2011 petrol ...

Your timing belt should be replaced every 50,000-70,000 miles, depending on your car's make and model. Also, make sure you understand if your engine is an interference engine or a non-interference engine. In an interference engine, the valves and piston share the same airspace and the timing belt keeps them from touching. This is why you'll have a major engine failure on your hands if the belt breaks or skips.

Amazon.com: ford focus timing belt kit

A timing chain is made of metal, similar to a bicycle chain. A timing chain runs inside the engine, as it needs to be lubricated by the engine oil. A timing belt typically needs to be replaced between 40,000 and 100,000 miles depending on the vehicle. It's a few hundred dollar repair.

When does the timing chain need to be replaced?

Hi, I have a 03 reg 1.4 focus which has reached 80,000. Its a brilliant car, which I am a bit worried that it will now need its cam belt changing. Does this car have a belt or a chain, as my local mechanic thinks its a chain and will last longer. Is this true? Is it an easy job to do??
