The fuel system uses 240 cc injectors. The engine efficiency also was improved by a 10:1 compression ratio. In 2005, the J35A4 was already replaced by the J35A6 (an electronic throttle body and new exhaust). The J35A9 is basically identical to the J35A6 and has some adaptation needed for the Honda Pilot AWD and Honda Ridgeline applications.

We often encounter engines that have a cold-start knock or ticking noise. In this case, the 3.5-liter V6 engines installed in various Hondas ® can make a knocking or ticking noise at idle and only when warm. The cause of the problem is the rocker shaft bridge has excessive clearance from the factory, which causes the rocker shaft to rotate and make noise.

\*For 2006, Honda is complying with the new SAE standard for measuring horsepower and torque, SAE net (Rev 8/04). This new method slightly reduces a vehicle's horsepower rating and torque due to more stringent testing procedures. Many manufacturers are still using the older standard of measurement.
