The Institute for Food Laws and Regulations (IFLR) at Michigan State University offers food law courses taught online by an international network of food science, academic, and legal professionals, who understand the complex nature of food laws and how they impact the flow of food and agricultural products across national boundaries.

Institute for Food Laws and Regulations

Last week the governor said restaurants are not permitted to serve just alcohol, they have to also serve food. The theory goes that if people sit down and have a meal with their alcohol, they're more likely to be responsible and obey social distancing and mask regulations, and less likely to break open container laws.

Governor Explains Rationale for Regulations Requiring Food ...

The U.S. food processing sector is extensively regulated by state and federal agencies. Federal agencies dominate the regulatory oversight: USDA FSIS for the meat and poultry processing businesses and FDA for all other food processing businesses. State agencies also have an active role in overseeing food processing businesses within their respective states, but their role is in collaboration ...
