Minds Online interview with Dr. Michelle Miller - Teaching ...

Miller realizes that many faculty do not share her positive view of technology in instruction, however. She opens her book by targeting that resistance with well-reasoned and supported counterarguments: in chapter 1, she counters the fear that teaching with technology is a faddish, passing phenomenon with a recounting of its potential lasting value to both administrators and instructors; in chapter 2, she presents evidence for the effectiveness of online learning and against typical worries ...

Minds Online: Teaching Effectively with Technology

She is the author of Minds Online: Teaching Effectively with Technology (Harvard University Press, 2014), and has written about evidence-based pedagogy in scholarly as well as general-interest publications including College Teaching, Change: The Magazine of Higher Learning, and The Conversation.

Michelle Miller, PhD

Michele Miller seeks to show with Minds Online: Teaching Effectively with Technology how technology can improve learning by enhancing both old and new teaching methods and techniques. This stems from Miller's (2014) firm belief in how technology can "amplify and expand the repertoire of techniques that effective teachers use to elicit attention, effort, and engagement that are the basis for learning" (p. 1).
