Answer: Blue and the other raptors in Jurassic World were trained to respond to human commands, particularly to Owen. The reason the raptors "turn" on Owen is because the I-Rex has raptor DNA in it and became the alpha of the raptors. But then the raptors turn their loyalty back to Owen at the end of the Jurassic World.

Michael Crichton's novel Jurassic Park is a difficult novel to get through without losing track of what is going on in terms of scientific plot. It is also a thriller novel, so there are a lot of, at times convoluted, plot twists to follow as well. As the park spirals more and more out of control, so too do the details get more and more difficult to keep track of.
