Statistics And Data Analysis For

Data scientists and statisticians typically define "data analysis" in different ways. For a data scientist, data analysis is sifting through vast amounts of data: inspecting, cleansing, modeling, and presenting it in a non-technical way to non-data scientists. The vast majority of this data analysis is

Difference between Data Analysis and Statistical Analysis

...

There are few well
know statistics are the
average (or “mean”)
value, and the
“standard deviation”
etc. Standard deviation
is the variability within
a data set around the
mean value. The
“variance” is the
