In a lift, the sticking point could be defined as the position where the resistance can't be overcome by the strength of the muscles. This is either due to a certain muscle weakness or a disadvantageous biomechanical position (a joint angle where force production is lower).

Online Library Sticking Points How To Get 4 Generations Working Together In The 12 Places They Come Apart Haydn Shaw

Sticking Points was an interesting book which explains about the four generations that are in the workplace. I found this book to be very helpful in explaining where I fit in the workplace as well as my other co-workers. Though I get along very well with my co-workers despite the age gaps, I can see why a book like this would be helpful for ...

Tyndale | Sticking Points

Shaw calls this friction "sticking points". These points are areas of life and work that are most likely to cause conflict and disagreement between generations. Shaw begins by identifying the four age groups (generations) most commonly identified by researchers. These four groups become the comparison/contrast throughout the rest of the book.

A lifter goes to pull, it rises a few inches and then nothing. It's anti-climactic, and whether you're in training or in a meet, it can ruin your day. The next common place is the midpoint. Often times it happens right about the knees, or right above them. And the last and most morale-killing sticking point is the lockout.
