Gurak & Lannon, Strategies for Technical Communication in ...

Communicating about technical or specialized topics, such as computer applications, medical procedures, or environmental regulations. Communicating by using technology, such as web pages, help files, or social media sites. Providing instructions about how to do something, regardless of how technical the task is or even if technology is used to create or distribute that communication.

Defining Technical Communication

Communication Goals Communication goals are the desired end-results of a program of communication. These are typically documented as the first step in developing a communication strategy. Communication goals are designed to be measurable but aren't time bound as the schedule for achieving goals is found in the communication plan. Goals need not indicate how they will be achieved but you can ...
