The science of the mind - AppCheating

Science of Mind was established in 1927 by Ernest Holmes (1887-1960) and is a spiritual, philosophical and metaphysical religious movement within the New Thought movement. In general, the term "Science of Mind" applies to the teachings, while the term "Religious Science" applies to the organizations.

Religious Science - Wikipedia

In consciousness, as in light, there is a quality of illumination. Western philosophy and science have, on the whole, attempted to understand consciousness solely in terms of the functions of the brain. This approach effectively grounds the nature and existence of the mind in matter, in an ontologically reductionist manner.

The Science of the Mind and the Science of the Brain ...

The study of the Science of Mind is a study of First Cause, Spirit, Mind, or that invisible Essence, that ultimate Stuff and Intelligence from which everything comes, the Power back of creation—the Thing Itself. – SOM p. 26-3 The Science of Mind is not a special revelation of any individual; it is, rather, the culmination of all revelations.
