Approach: This can be done using the Title property in the Console class of the System package in C#. The title refers to the string to be displayed in the title bar of the console. The maximum length of the title string is 24500 characters. If the retrieved title is longer than 24500 characters in a get operation then it will give InvalidOperationException and if the retrieved title is longer than 24500 characters in a set operation then it will give ArgumentOutOfRangeException.
