Ducted range hoods are hoods that vent outside your home. They are fitted with a duct that carries air contaminants through pipes to the exterior of the home. They can go through your cabinetry, ceiling, or straight through the wall behind the hood. The vent exhausts outside either to an exterior wall or the rooftop.

4 Ducted Range Hood Venting Options - Comprehensive Guide

Airborne grease makes exhaust fans sticky, which in turn attracts dirt and dust. Clean the grill and fan blades twice a year, or whenever they start to look bad. The filters in recycling range hoods need cleaning every couple of months or so (depending on how and what you cook), and the fan and housing need a good cleaning every six months.
