The Coracle (Welsh Crafts): Jenkins, J Geraint ...

Coracle - the traditional Welsh fishing vessel Most often spotted bobbing on the Tywi and Teifi rivers, coracles are little one-person boats made from woven willow. They've been used by fishermen in Wales since pre-Roman times - Julius Caesar liked them so much he's said to have employed them in his invasion of Spain.

Traditional Welsh craft activities | Visit Wales

The coracle has been in use in Wales since the 7th century. Today, coracles are used along the Towy River in southwest Wales by sport fishermen angling for salmon and sea trout. They are propelled with a paddle held in two hands over the bow, in a figure-8 movement. Coracles are very light — the hull is painted canvas over wooden strips.

Coracle - International Small Craft Center

Coracles A small, keel-less boat, the coracle was specifically designed for operating in swiftly flowing streams. Evidence of coracles dates back to the early Bronze Age, though the first clear description of the craft does not appear in texts until 1188. Early coracles consisted of a basketwork frame covered in animal hide.

Coracle - Wikipedia

The frame of the coracle is constructed of woven willow shoots or nailed wooden slats. A wooden thwart (bench) spans the middle of the boat, and adds rigidity, as well as furnishing a place for a handle to carry it. The coracle is used in swift flowing rivers, and many times has flat bottoms to navigate the shallow waters.
